growing public interest in environmental sustainability is a gift to historic sites and museums it is an invitation to use our knowledge collections and sites to  
discuss how human practices and interactions with the environment in past were and were not environmentally sustainable being green still has a great deal  
to do with using less energy buying less stuff and recycling more but now sustainability just as important in strategic planning interpretation and public  
engagement environmental sustainability at historic sites and museums details how to go green at every level of your organization why is this important  
because it is no longer a choice environmental awareness as an amenity has become climate awareness as a necessity seas and storms threaten historic  
coastal communities flooding increasingly threatens sites near rivers what structural precautions collections care changes and insurance approaches should

you take for the new normal what self sufficiencies must you develop what role do you have in community responses let environmental sustainability change the way you operate engage the community and fulfill your mission let this book introduce you to the topic if you re new to it or take you to the next level of performance if you ve been doing this awhile from one of the leading experts in the sustainability practices in museums this book explains how engaging in sustainable practices will benefit not only the planet but also the people you serve your programs and even your profits to demonstrate this sutton provides case studies from museums at the forefront of the green movement
