they locked him up to send a message this book sends one right back when  
senior trump white house advisor peter navarro refused to kneel before the  
democrats rigged j6 witch hunt they came for him with guns and handcuffs  
ambushed by five armed fbi agents at reagan airport shackled in leg irons and  
strip searched navarro became the first ever top presidential aide in us history to

be put in federal prison for defending the constitution i went to prison so you won't have to presents peter's raw unfiltered account of what really happens when the american justice system is weaponized for political revenge told through a powerful exchange of personal letters between peter and his fiancée this book pulls back the curtain on a corrupt and bloated federal prison system in which trump era reform laws are ignored taxpayer dollars are wasted by the billions and families are torn apart this isn't just navarro's story it's a warning to every american if rabid partisans can weaponize our justice system to imprison a senior white house official for doing his job no citizen is truly safe candid defiant and deeply personal i went to prison so you won't have to delivers a searing indictment of the left's lawfare machine and a stirring defense of freedom love and constitutional principle in the face of overwhelming injustice if they can come for peter they can come for you read this book before it's too late

the global innovation index 2025 reveals innovation systems at a crossroads where breakthrough technologies in ai and quantum computing advance rapidly while investment growth slows and collaborative models evolve to address global challenges tracking the most recent global innovation trends the gii captures a moment of recalibration where r d growth has slowed venture capital activity has moderated with cautious early stage funding and patenting gains remain modest even as collaboration grows through networked ecosystems and multi stakeholder platforms

aromatic basmati rice also known as the scented pearl by its connoisseurs has been grown in a specific geo climatic region of india and pakistan for centuries it is appreciated by consumers in more than 100 countries around the globe due to its specific aroma and grain quality traits basmati rice also fetches a much higher price in the international market compared to other non aromatic rices benefiting its producer farmers and also traders timely information on basmati rice acreage and production is a necessity for planners policy makers and traders alike satellite remote sensing and other geoinformatics tools and techniques are presently being used in basmati rice area estimation and production forecast unfortunately there is no publication available that deals with the various aspects of basmati rice including its cultivation practices area mapping monitoring crop growth and forecasting production the present book may be the first of its kind which deals not only with the above aspects of aromatic basmati rice but also the global trade and issues arising from climate change and its likely impact on future production specifically the book covers basmati rice historical and cultural perspective varieties and cultivation practices science of rice aroma environmental factors influencing basmati aroma and grain quality remote

sensing in basmati area mapping yield prediction using machine learning techniques hyperspectral data analysis in basmati discrimination traditional methods of area and yield estimation global trade in basmati rice influence of climate change on basmati rice production in essence the book covers both agronomical and geo spatial technological aspects involved in aromatic basmati rice cultivation mapping and monitoring it is hoped that the book will be useful for the researchers geospatial technologists agronomists environmentalists farmers traders consumers and all those interested in this wonderful grain gifted to us by mother nature

master s thesis from the year 2023 in the subject computer sciences computational linguistics grade 1 3 university of trier computerlinguistik und digital humanities language english abstract in 2022 various socio political debates regarding the russian ukrainian war took place between german speaking users on twitter due to the large amount of daily user generated tweets the main goal of this master thesis is the development of an automatic cross target stance detection model to enable an examination of german twitter data on the russian ukrainian conflict 2022 in the scope of this thesis the bert model is used and trained jointly on multiple related targets of interest by encoding both tweet and target within this work an auto labeled dataset a small manual labeled test set and an unlabeled dataset with german tweets on four targets of interest are presented a number of experiments with different bert models are conducted studying cross target generalization as well as the influence of class balance and case sensitivity the best performing fine tuned model is applied for automatic stance prediction on 2022 twitter data the stance prediction results are examined to detect potential reasons within a stance category the results of this work show that with the applied cross target approach reasonable performance on known targets can be achieved but does not suffice for a successful cross target transfer on unknown targets in addition it is observed that a balanced class distribution can counteract a bias towards an overrepresented class and results suggest that case sensitivity is detrimental in stance detection the classified data show a number of potential reasons for a favorable and opposing stance towards a respective target within the russo ukrainian conflict overall the stance prediction results show that in 2022 there were consistently more german speaking twitter users in favor of supporting ukraine in the conflict than those opposed to it
